Fullerton Tool Company, manufacturer of solid carbide round cutting tools, hosted a golf outing on September 11, 2010 to bring suppliers, customers and employees together for a fun-filled day of golf. Our event was held at Swan Valley Golf Club in Saginaw, Michigan and included 100 golfers with an 18-hole, 4-person scramble format. A good time was had by all!

Three weeks prior to our event, the President of Fullerton Tool, Patrick Curry, attended the Woody's charity golf outing for Pink Ribbon Riders and was touched by the work Pink Ribbon Riders does for breast cancer patients. Coupled with the fact that Fullerton Tool currently has two employees battling breast cancer, we decided to sell raffle tickets for a Schuering Speedsports/Amsoil race jacket that was donated by Woody's and donate the proceeds to Pink Ribbon Riders.

Shortly thereafter, Patrick decided to purchase a **Mathews Z7™ Bow** and sell raffle tickets for that as well to support Pink Ribbon Riders. Tickets were sold at the outing, but Patrick took it upon himself to solicit sales to many other customers, suppliers and employees outside of the golf outing. Fullerton Tool's very own AlumaMill G3 is used in manufacturing the bow!

Although our outing is not a charity event, we at Fullerton Tool were thrilled to use the opportunity to raise funds for this incredibly worthy cause and present Pink Ribbon Riders with \$2,000 from proceeds of our raffle sales!!

President, Patrick Curry and his wife Jenny

Lisa Ferchau (event coordinator) - Center

Fullerton employee, Nicole Tesch (2nd from left) currently battling breast cancer and Luann Ferchau (2nd from right), wife of Fullerton employee is a breast cancer survivor.
