MANUFACTURING

Thank you Pink Ribbon Riders and EPS for not only giving Vail Manufacturing an opportunity to donate to an incredibly worthy cause, but to save us money at the same time!

EPS has offered to donate 10% of our credit card sales to Pink Ribbon Riders just for using their processing services. Upon hearing about this program we called EPS and were given a rate comparison within about 4 hours that showed we could save about \$100 per month on our service fees so we jumped on the plan! Within 3 days we had a new card swipe machine and were up and running!

The customer service from this local family-run company has already proven to be well worth the switch and the added bonuses of saving money AND making a completely effortless donation to PRR makes us very confident in recommending this program to everyone who processes credit cards! In fact we have already sent out over 50 emails letting the companies we shop with know about the plan!

We are thrilled that PRR and EPS have come into our world!

Carrie Kroschel, VP
